## MEMORANDUM FOR THE RECORD

SUBJECT: Discussion with Rose Donovan of the Fairfax Journal Regarding Roads

The Public Affairs Office referred Ms. Rose Donovan to the undersigned on 3 December 1984. I called Ms. Donovan, and she asked the following questions.

a. "What is the status of the extra lane on the Beltway?" I answered that the Agency was requesting funds in the 1987 Budget in the amount of \$500,000 for this work. If approved, it would be made available to the State to have them design and construct the addition.

b. "Will it be completed by the time the new building is ready?" I answered that I had no feel for the timing, and suggested she contact the Virginia Department of Highways and Transportation and that I was certain the Agency would request it be done as soon as possible.

c. "What other road improvements are scheduled?" I told her the acceleration lane on the Parkway was under design, and I expected work would begin in the near future. I suggested she contact the McLean Citizens Association to get a description of the work on Route 123 and upon receipt of the Environmental Impact Statement in February of 1985, a selection will be made and work begun. I said that the Agency fully expects this work to be finished by the time the building is ready.
